

Have the best solution – Ecohouse

DOMEX[®]
PREFABRICATED BUILDINGS **HOUSE**

About Us

- Main activity - production of individual houses, multi-flat buildings, cabins, garages, prefabricated roofs.
- Factory location - Lithuania, just outside Klaipeda sea port.
- Sales company AS Econdo located in Norway, covering all areas of Norway.

Factory

- Investment in building new factory 16 mln. Lt
- Opening of a new factory – beginning of Year 2009
- Modern technology with capacity of 18 000 sq. m. of living area per year

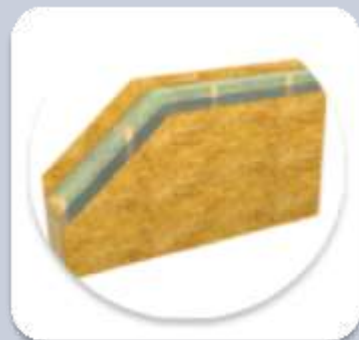

Production Technology

- Projects designed with frame house design program SEMA.
- Completed drawings are sent straight to the CNC-driven milling equipment.
- The milled construction wood is assembled to wall, ceiling or roof elements, filled with thermal insulation and covered with board or membrane materials.
